

Acoustical Consultant – Architectural Acoustics – Phoenix Office

Background

The Sextant Group, Inc. is a national independent consulting firm offering planning, design and consulting services in a wide range of specialty areas including: audiovisual, IT/telecommunications, building security, specialty lighting, medical equipment, and architectural acoustics/noise vibration.

The Sextant Group will be interviewing qualified candidates for an acoustical consultant position in our Phoenix AZ office.

Job Description

The Acoustical Consultant will act as a team member in The Sextant Group's architectural acoustics practice. That team is a close-knit group of dynamic, hard-working, and well-qualified acousticians who seek to deliver best-in-class solutions to our clients using state of the art tools, a healthy appetite for technical exploration, and a commitment to excellent client communications.

The position will require the candidate to act as the primary acoustical consultant on a variety of national and regional projects including classrooms, lecture halls, healthcare facilities, courthouses, industrial plants, auditoriums, theatres, media production facilities, and broadcast studios. The consultant must develop, present, and manage solutions related to room acoustics, sound isolation, mechanical system noise and vibration control, and environmental acoustics. As necessary, the consultant will create CAD drawings, prepare reports, use acoustic modeling software, and perform on-site acoustic testing to support their design work. The position requires the candidate to actively participate in several concurrent projects while efficiently delivering accurate, thorough, and high quality work to our clients.

Responsibilities

- ✦ Key contributor within a project design team, bringing a creative, collaborative, evidence-based approach to architectural acoustics
- ✦ Collaborate with architectural team members and clients
- ✦ Develop high-quality architectural acoustics reports, drawings, details, cost analyses, and specification documents
- ✦ Analyze acoustic solutions using computer modeling software
- ✦ Review submittals of shop drawings
- ✦ Perform on-site inspections to review the implementation of a project's acoustical solutions
- ✦ Overnight travel to attend project meetings, site visits, and perform onsite acoustic testing
- ✦ Ensure that all work is completed on-time, in-budget, and consistently within The Sextant Group's high standards of quality
- ✦ Perform additional duties as assigned

Position Requirements

- ✦ Applicants should have a minimum of 5 years' experience (10+ preferred) as a consultant in architectural acoustics or a related field
- ✦ Bachelor's degree in mechanical engineering, architectural engineering, or physics including relevant classes or a degree concentration in acoustics or vibration is required. Master's degree in acoustics, noise and/or vibration control preferred.
- ✦ Expertise in a broad range of acoustical disciplines, including room acoustics, sound isolation, mechanical system noise and vibration control, and environmental acoustics
- ✦ Excellent attention to detail
- ✦ Outstanding oral and written communication skills
- ✦ Values that include integrity, responsibility, and accountability
- ✦ Works equally well as an individual contributor or team member
- ✦ Maintains a professional and positive attitude in a fast paced and occasionally high pressure environment
